### International Dye Pre Pack

Complete set of everything you need to dye fabric shoes. **#ART1**

### International Dye Color Chart

Fabric Dye Color Chart **#ART3**

### Bridal Whites & Bridal Whites II

Set of 7 premixed dyes that match wedding gowns, ranging from white to light ivory; Dye chart and a gross of daubers. These dyes have the unique property that almost completely eliminates the blue color caused by the optical brightener on the shoe when in daylight. These dyes keep the shoe soft and smooth.

**Bridal Whites II Set** **#BWDS2 ea.**  
**Bridal Whites Replacement Dye** **#BWD1 ea.**  
**Bridal Whites Dye Chart** **#BWD4 ea.**

### Easy Matte

Easy Matte is a precoat that can be applied to satin shoe to give it a matte finish. The shoe can then be dyed as usual. It also completely eliminates the blue color caused by the optical brightener on the shoe in daylight. This precoat keeps the shoe soft and smooth.

Pint **#IDEM ea.**

### Color Boost

Color Boost is a precoat that when used on crepe, peau or lux shoes, allows the shoes to dye darker. This product keeps the dye from fading on a crepe shoe allowing it to dye as vibrant and intense as if it were a satin shoe.
