

Adhesives

Barge All-Purpose Cement

Improved formula with much stronger bond!. Easy to spread with no smear. Holds all man-made materials upper materials securely. Faster to use and easier to work with.

- Waterproof
- Extremely flexible
- One coat
- No nails
- No stitching
- Will not freeze.

3/4 oz. Tube #1237 ea. Quart #1240 ea.
2 oz. Tube #1238 ea. Gallon #1239 ea.

Barge Rubber TF Cement

Commercial adhesive compound with a flexible bonding agent. It works by combining the quality of rubber with fluids for easy application. Rubber stays in the bond to maintain a flexible hold. Great for sticking soles back on boots, and just about anywhere else two flat surfaces need to be re-connected in a durable, weatherproof manner.

Quart #1254 ea.

Barge Infinty Cement

Universal all-pupose cement. Improved super-stick toluene-free formula. For use directly on vinyl, PVC, polyurethane, leather, cotton, synthetic fibers and woven fabrics. Clear adhesive. Dry time 2 - 5 minutes.

Quart #DC731 ea.

Barge All-Purpose TF Cement

Toluene-free formula provides a superior bond. Bonds most soling materials for use in the repair of shoes. Outstanding for bonding most rubber compounds and leather. Recommended for bonding all like and unlike materials, except for vinyl. Easy to spread. Weatherized - will not freeze. Dry time 10-15 minutes. Open time up to four hours. Gallon #DA002ea.

Barge All-Purpose Thinner

This thinner is especially made for all-purpose type cement (not for use with celluloid cements) It may also be used to clean brushes or remove soles that have been attached with all-purpose or similar types of cement.

Quart Can #1249 ea.
Gallon Can #1248 ea.

Barge Super Speed TF Cement

High speed **Toluene-free** formula is extremely flexible and waterproof. One coat. Easy to spread with no smear. Fast dry time and long open time. Dry time 15 minutes. Open Time four hours.

- Strong bond
- No press
- No nails
- No stitching

Gallon #1242 ea.

Barge Super Bond™ Fast-Dry TF Cement

Fast-dry **Toluene-free** formula. Outstanding for bonding leather, rubber, heel lining, patches, wood, aluminum, steel, fabrics, glass etc. (Not for use on vinyl). Waterproof, flexible and non-smearing. Dry time 10 minutes. Open time - up to four hours.

Gallon #1245 ea.

Master All-Pupose Cement & Thinner

Excellent for wide range of materials including leather, rubber, felt, cork, EVA, TR, PVC and polyurethane. Can be used with or without heat activation.

Quart (Cement) #1256 ea.
Gallon (Cement) #1246 ea.
Quart (Thinner) #1258 ea.
Gallon (Thinner) #1251 ea.

Master Maxbond All-Purpose Cement

High-powered all-purpose cement. Extremely versatile contact adhesive that works on most materials (except PVC). Works well on leather, rubber, EVA, TR felt and cork **without using a primer**. (Primer suggested on polyurethane). High initial strength that increases over the first 24 hours. Gallon #1253 ea.

Master Multi-Pupose Cement

A true multi-material adhesive! May be used on many materials in the shoe repair industry, including leather, rubber, EVA, TR, felt, cork and PVC (vinyl).

Quart #1257 ea.

Cement
2 oz. #PAR1000 ea.

Fast Fix™

A superior grade cyanoacrylate and the best solution to working on today's "Tough to Bond" plastic, vinyl, and urethane bottom shoes. Bond vinyl, plastic, urethane and rubber in one to two minutes. Fix plastic heels, unit soles and athletic shoes in seconds. Fast-Fix™ is specially formulated for more flexibility and less crystallization and provides superior strength that is unmatched by other adhesives.

Cement 2 oz. #SF6250 ea.
Activator 11 oz #SF6300 ea.
Solvent 1 oz. #SF6400 ea.

HH-66 Vinyl Cement

"More durable than the fabric itself!"

Superior quality, fast drying adhesive. It is used extensively for bonding vinyl coated and vinyl laminated fabrics to themselves or to various materials. Also used to bond urethanes, vinyl foams and films, rigid plastics, synthetic fabrics, wood, leather, and metals. It is outstanding for sealing or waterproofing stitched seams.

Quart #HH66 ea.

Dual 88 Cement

All-purpose, low cost adhesive, which develops fine cohesive strength quickly to give permanently strong, flexible and waterproof bonds. Amber clear, and leaves no glue lines.
