

These **prefabricated orthotics** are designed with a contoured heel cup to cradle and stabilize the heel. A raised longitudinal arch, a gentle metatarsal support to reduce pressure to the metatarsal heads and a cuboid relief that balances pressure across the midfoot.

Conformer 3/4

The original Conformer manufactured with a cushioning, yet supportive foam footbed. Our most affordable and popular Conformer 3/4. Blue packaging. **#Con34 pr.**

A brushed version is also available. **#Con34B pr.**

Conformer 3/4 DD

Features a combination of two materials with the top surface firmer than the bottom. This combination gives comforting support through the bottom shell and biomechanical control from the top layer. The Dual Density is usually chosen as a sports Orthotic for control as well as for comfort. Green packaging. **#Con34DD pr.**

Conformer 3/4 HD

The Conformer 3/4 HD is one piece of extra firm material molded into the design. It can be ground or posted and is used when customizing is needed as an option, or when the weight of the patient is a concern. Red packaging. **#Con34HD pr.**

Women's Sizes: 3-4/5-6/7-8/9-10 Men's Sizes: 7-8/9-10/11-12/13-14

BIRKENSTOCK® Blue Footbeds Casual Arch Support

A contoured arch support made of BirkoCork™. Birkenstock's unique blend of natural cork, lined with blue silk at the top and moleskin at the bottom, provides long-term comfort and arch support! Contoured arches and deep heel cup helps relieve heel pain and plantar fasciitis. Sole material of natural cork and EVA provide shock absorption and flexibility.

- Provides proper alignment, balances foot impact areas, reduces fatigue.
- Supports instep and ball-of-foot.

#B110 pr. (Medium Width)

Designed for flat shoes, where the heel and forefoot are the same height.

Walkfit® Custom Orthotics Walkfit® Platinum

Adjusts the position of the foot into proper alignment to relieve foot pain and provide comfort, stability and balance.

- Realigns the spine and pelvic area to reduce knee, hip and lower back pain.
- Alleviates pressure by evenly distributing the impact of each step.
- Features bio-lock heel cup with patented gel pad for added cushioning.
- Treated with nanosilver, an antibacterial agent that kills germs and eliminates odors.

Walkfit orthotics are washable and durable and easy to transfer between shoes. Each package contains three sets of removable arches that provide an adjustable, customized fit: **low, medium or high**. Eight sizes fit women's 6 - 12 1/2 and men's 6 - 12 1/2.

Arch Angels™

Children's Comfort Insoles

Arch Angels™ Children's Comfort Insoles are 3/4 length and fit naturally and comfortably into most enclosed shoes. They are designed to make kid's feet more comfortable while enhancing natural arch development. These insoles contour to the developing foot, going from a low, gentle curve in the smallest size, to a higher arch, that more resembles an adult, foot with the largest size. Non-toxic materials.

NEW!

- Cushioning top layer.
- Supportive inner core.
- Durable foam bottom.
- Hand washable.
- Unique triple-layer design.
