No. 10214 pr.

Classic Gel Heel Cups combine gel and the waffle design for the ultimate in shock and vibration absorption. Regular & Large

No. 10215 pr.

M-F Heel Protector

The original heel protector, available since 1960. This heel cup of flexible molded polyethylene (plastic) helps relieve heel pressure by giving bilateral support to the "fat pad" under the calcaneus.

Regular Size (Men's / Wos. 7.5+). Very Thin. #MF1, pr.

Wonderzorb Dual Density Orthotics Blue, Red and Green Dots.

Non-compressible medical grade silicone reduces shock loads to the feet, knees and back by providing even pressure distribution throughout the orthotic. Wonderzorb orthotics will never bottom out and the proprietary silicone material is hypoallergenic, odorless and fully washable.

Dual Density Orthotics offer maximum support and shock absorption using two densities of medical grade silicone - clear silicone with a colored softer density silicone dot to provide additional relief to sensitive areas.

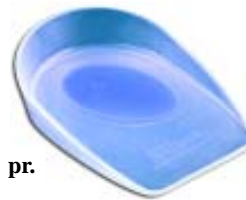

Wonder-Sport 3/4 Length Soft Silicone (Green Dot)

Designed for metatarsalgia, fat pad atrophy, diabetic feet, pr.

Wonder-Spur Soft Silicone (Blue Dot)

Designed for heel spurs, plantar fasciitis, knee, back & ankle pain & fat pad atrophy, pr.

Wonder-Cup Soft Silicone (Red Dot)

Designed for bursitis, achilles tendonitis, pressure ulcers, and plantar fasciitis, pr.

Platinum Heel Cradles - Spur

Recommended for relief from plantar fasciitis or general heel pain, these unique heel cradles are clinically proven to absorb shock and cushion painful heels. Soft gel plugs provide relief at the most sensitive areas, while the medial extension helps support the arch.

No. 50750 pr.

Platinum Heel Cups Neutral

Clinically proven to absorb shock, cushion painful heels and reduce stress on the Achilles tendon, these unique heel cups are recommended for people with Achilles tendonitis or general heel pain. The "cupped" design transfers pressure away from the rear foot, and soft gel plugs offer additional pain relief. No. 50770 pr.
