

Combination Sheeting - Save time and money in your practice.

Plastazote / Poron Medical / Puff Tri-Laminate

The protection of Plastazote, cushioning of Poron, and durable/moldable qualities of Puff laminated together to save time and money. Used for diabetic foot orthotics.

- AC238 1/8" Pink Plastazote + 1/16" Poron + 1/8" Puff (37"x30")
 AC020 1/8" Pink Plastazote + 1/8" Poron + 1/8" Puff (37"x60")

Puff / Poron Medical / Puff Tri-Laminate

Puff protects the Poron and allows full molding into the most complex shapes. Poron provides superior cushioning and resists bottoming out. Excellent for foot orthotics and prosthetic liners.

- AC236FL 1/16" Pink Puff + 1/16" Poron + 1/8" Pink Puff (37" x 30")
 AC236BL 1/16" Blue Puff + 1/16" Poron + 1/8" Blue Puff (37" x 30")

Poron Medical / Pink Plastazote (39"x14")

The most versatile sheeting available. Use this material for diabetic and insensitive foot applications as well as for athletic and normal ambulatory activities. Poron provides the shock absorption while Plastazote molds for pressure distribution and protection.

- AC8MP116P 1/16" Poron + 1/8" Pink Plastazote
 AC8MP118P 1/8" Poron + 1/8" Pink Plastazote
 AC4MP18P 1/8" Poron + 1/4" Pink Plastazote

Medium Pink / Firm White Plastazote (33"x29")

The best of both densities conveniently laminated together to save the practitioner time and money. Used for making diabetic or insensitive foot orthotics.

- AC6050 1/8" Pink #1 + 1/8" White #2 Plastazote
 AC6151 1/4" Pink #1 + 1/4" White #2 Plastazote

Crepe / EVA Sheets

P-Cell An advanced alternative for Pink Plastazote. P-Cell has a greater resistance to the compression that occurs when weight is applied over a period of time.

- Shore A Durometer 20 - 25,
 Heating Temp 300°F (1-3 min.)
 SDUR-00161 1/8" Pink (44" x 30")
 SDUR-00165 1/4" Pink (44" x 30")

EFM Extra Firm Molding material is an excellent lightweight reinforcement material for foot orthotics. Shore A Durometer 75.

- SDUR-00047 1/8" EFM
 SDUR-00048 1/4" EFM

Diamond Crepe (18"x36") A moderately firm density EVA/SBR with a diamond pattern on one side. It is durable, resilient and thermomoldable. Excellent for external shoe modifications, posting and soling.

- Shore A Durometer 50 - 55,
 Heating Temp 300°F (1-2 min.)
 CR12 1/4" Diamond Crepe
 CR15 5/16" Diamond Crepe
 CR18 3/8" Diamond Crepe
 CR24 1/2" Diamond Crepe
 CR30 5/8" Diamond Crepe
 CR36 3/4" Diamond Crepe

Colors Available: Black, Brown, White, Sand, Grey, Red

SBS Crepe (18"x36") This moderately firm density EVA/SBR is the same as Diamond Crepe except both sides are sueded. Excellent for external shoe modifications, build-ups, and posting. 50 - 55 Shore A Durometer, Heating Temp 300°F (1-2 min.)

- CR12SBS 1/4" Smooth Crepe
 CR18SBS 3/8" Smooth Crepe
 CR24SBS 1/2" Smooth Crepe

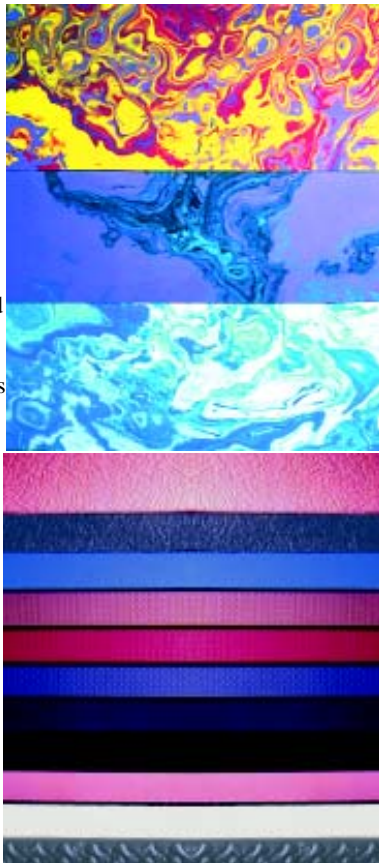

Colors Available:

Black, Brown, White, Sand, Grey, Red

Birkenstock Sole Sheets -- This EVA material is soft, flexible, and lightweight to provide cushioning and shock absorption. The "Birk" tread has deep continuous grooves to make the soles both slip resistant and durable. Colors: Black, Brown, White. Thickness 3/8" No. G7033, ea.

Swirl EVA An exciting colorful padding material used as a topcover of foot orthotics and padding of AFO's and other orthotics. Children love the fun colors. 25" x 43". 35 Shore A durometer.

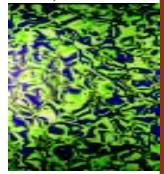

- 3mm**
 1691003 3mm Purple (Purple/Black/Green)
 1693003 3mm Watercolor (Blue/Green/White)
 1692003 3mm Red (Red/Yellow/Purple)
2mm
 1691002 2mm Purple (Purple/Black/Green)
 1693002 2mm Watercolor (Blue/Green/White)
 1692002 2mm Red (Red/Yellow/Purple)

Microcel Puff (37" x 30") A wonderful shock absorber that is heat moldable and has excellent shape retention. Shore A Durometer 35,

Heating Temp 300°F (1-3 min.)

- AC32BL 1/2" Blue Puff
 AC34BL 1/4" Blue Puff
 AC38BL 1/8" Blue Puff
 Multicolor Swirl, Flesh, and White colors are also available.

Cloud Crepe/Ortho EVA (18" x 36")

Durable and moldable moderate density EVA that provides excellent support and shock absorption. Use for foot orthotics, prosthetics, and all kind of padding.

35 - 40 Shore A Durometer, Heating Temp 250-275°F (1-2 min.)

- CR12EVA 1/4" Cloud/Ortho Crepe
 CR15EVA 5/16" Cloud/Ortho Crepe
 CR18EVA 3/8" Cloud/Ortho Crepe
 CR24EVA 1/2" Cloud/Ortho Crepe
 CR30EVA 5/8" Cloud/Ortho Crepe
 CR36EVA 3/4" Cloud/Ortho Crepe
 CR48EVA 1" Cloud/Ortho Crepe

Colors Available:

Black, Brown, White, Sand, Grey, Red

Luna Crepe-- a flexible dense outsole material that is extremely long lasting. Size: 15" x 30"

Color: Black, Amber/Honey

- No. LU7 7 Iron
 No. LU9 9 Iron (3/16")
 No. LU10 10.5 Iron
 No. LU12 12 Iron (1/4")
 No. LU15 15 Iron (5/16")

Ultra-Cloud EVA This unique soft, lightweight, thermoldable EVA provides long lasting shock absorbing protection. It may be used against the skin as a top cover or padding. Available in Blue. Sheet Size 18" x 36". Durometer 17 - 20 Shore A, Heating Temp 200-275°F (1-2 min.)

- No. UC6R 1/8" Blue Ultra Cloud
 No. UC12R 1/4" Blue Ultra Cloud
 No. UC18R 3/8" Blue Ultra Cloud
