SILIPOS®

Gel Met Pad with Toe Spreader

Anatomically designed for comfort and protection of metatarsal heads. The built-in toe spreader reduces discomfort from Hallux Valgus. Easy to apply and comfortably fits into dress or casual shoes. No. 4020 S/M, pr. No. 4021 L/XL, pr.

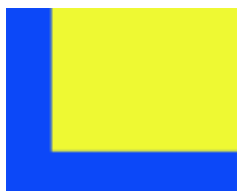

Boot Bumper

Optimum absorption of pressure, abrasion and shear force! Soft conforming gel pads help protect the front and back of the ankle from pressure, friction, and pinching as well as abrasions caused by athletic footwear.

The unique properties of the Silipos gel sooth irritation, burning and redness. #1770, S/M:7.5"- 9" #1772, L/XL: 9" - 10.75" ea.

1/8" Yellow Plastazote + 1/16" Urethane + 1/8" Puff Protection with durability is what this combination of firm Yellow #2 Plastazote, urethane and puff provides. Use this combination for patients who need an accommodative orthosis but whose foot sensation is intact. (37" x 60") No. Matcst1, ea.

1/8" Blue Plastazote + 1/16" Urethane + 1/8" Puff This combination provides protection for the at-risk foot. The soft Blue #1 Plastazote top conforms to the shape of the foot while the urethane middle layer absorbs shock. The puff bottom helps maintain the shape of the orthosis. Use this combination for patients with diabetes with a loss of sensation. (37" x 60") No. Matcst2, ea.
