

Insole for Diabetics

Anti-Shox ThermoThotics - Polyetherdiol Base

Features a conformable 1/8" Plastazote top cover for continuous protection and comfort. Base made from ED-9 Polyetherdiol urethane, a state-of-the-art heat moldable base compound that absorbs shock forces and cushions the plantar aspect of the foot. This resilient orthotic supports the arch and unloads stress at the forefoot while sitting naturally in the shoe. Easy to trim and Grind.

Sizes: Men's 8-15, and Women's 5-11.

No. 40664ASST, **pr.**

Top Material: 1/8" Plastazote Medium
